

Notes From The Messenger's Table

August 21, 1968

Talking about when some sickness exists on the physical it already exists on the mental

Not from righteous its guess work. Robbers and liars. "No I don't believe in Astrology. Witchcraft is only for the ignorant person and they operate on the _____ if you believe in them. I went to those people and listened to them 2-3 years after coming into the knowledge of myself. "I want to make some money for you". I did this to be able to teach you.

Astronomy is truth but astrology doesn't give you that. You can't associate the two together.

If you not strong and you start to studying it you will become a victim of it. All their practice comes from the devil.

Holy Quran teaches Allah creates the heavens and earth in truth and anyone trying to use it for false it will show them up.

If one person born under a certain sign then he is the same as all others born under that sign and what about life born under that sign on other planets.

Life on some planets have no resemblance to our life yet it is life. All planets with water have life. There is no life without water.

Astrology is the root of witchcraft. Scientists have studied the particular nature of the human being and he puts this nature under a star and it is not that the star have any effect at all on a person.

The qualifications of a Messenger. Muhammad have knowledge of all that the people have a knowledge. If he doesn't he will lose an argument with them -- Therefore Allah has given me 104 books and of them I like the Holy Quran best of all.

They cry out to Allah but they are as a forsaken people -- Because it is not in their favor. After Muhammad: Because of success. More enemies he had. His authority ruled in Medina like the one who was the politician.

God make the last Messenger very smart. You don't fool him even though you may try. He is working as a "second self" of Allah. He stands between you and Allah. He cannot give you an unjust decision because Allah has given him the law and if he does give an unjust decision he will be punished by Allah. He never is in a position of not knowing. He can't make a mistake.

Holy Quran teaches you that when the falling away comes Allah said to the Messenger you may grieve yourself to death but it won't make any difference because if he wanted them to believe he could have. Last Messenger is called a merciful one. Jesus called him a comforter. Trouble with the people is they won't submit. They want him to submit to them. Say I hear and I believe. If you don't you will anger the God. You will know the believer. They are the successful ones.

If you tell the children to do a certain thing and they jump out and do it, that's a good one.

Whatever Messenger says you believe and if you disbelieve Allah lets them error, not causes them to error.

You can't say you believe and be disobedient and when you do you are disobeying Allah.

No success in rejecting the Messenger. "I will not go after one of you thrown off".

Only way you can reach Him is through the Lamb.

Messenger is the door -- The spirit of truth--He is highly energetic in delivering the Message.

They wait for the evil accident of time to come to the Messenger.

Last Messenger must suffer something that every Messenger suffered of. He can't close the book unless He goes through something they suffered then He goes to His Lord. Read "I am the one who was Dead".

Fate of our People: They went to Hell alive "Lake of Fire" because of their disbelief in the Messenger. They were jealous.

To acquaint the dead with the knowledge of two Gods is the most dreadful work of the resurrection.

Prophets said "They saw the Lord". Messenger comes with a new thing, I come with God's wisdom and what the God said millions of years ago. And this is getting at the root. "I am the end of the prophets. The coming of God and His presence is the end of the prophets.

Did you hear what happened in Europe. Czechoslovakia invaded. Messenger predicted this. Johnson back them to rebel. Now he's afraid to back them up with blood. He lost a lot of money trying to split Russia and her satellites. Now he will be labeled a coward if he does not come to their defense. Vietnam the graveyard of America. Messenger knew this 37 years ago. This people will be whipped with calamity after calamity. They will be confused and when they realize they are going down they will be like insane people. He's coming out of Vietnam and they will sink his Navy.

China, Russia. They just nervous to get at them. Japan will come out with China when she sees the U.S. power weaken.

They will sink 7th and 8th fleet simultaneously. Drop his planes from the sky like rain.

Start on a lower scale like the submarine. They've already gotten some by they won't tell you.

It will be a grievous time. He will strike the country (people who don't believe) with a grievous chastisement.

They will strike when you least expect (Eisenhower report on news) let him suffer, death will take him out of it.

You will not see a believing people depending on sympathizers with disbelievers. Intellectual people offer their help and I am accepting their help. This is the way to make progress.

Messenger used to have a sister teaching at the rostrum (Roberta) She left when the first attack of the enemy came. Allah is with you when you stand up.

Steps in re-admitting students on morals charges. Turn them back to their parents 30 days no enjoyment.

Punish them. Deprive them of that which they have.

I will keep them home forever until you chastise them. We won't let them spoil the others in our school.

Stay away from camping this year.

Don't forget that this is the judgment of America. We can't afford to be happy while this country is lamenting.

Come and go into your chamber and shut the door ????? while until His wrath is _____

We are only 13 years from the very limit of the time (it must happen in last 20 years). We are in the year 1387 from 1300-1400 but not over.

The sheep has 14 square ft. = Messenger he has this length of time to convert the people.

He has about 24 hard years of work ????? in his first war to try to save his people and one of these years he will ???? the whole thing. One square inch has 10,000 atoms. There is an atom in 10,000,000 parts. Parts=converts.

1st one of the sheep - 10,000. Behold the Lord cometh with 10,000 saints. Allah said when you get 10,000 I'll be with you. Deuteronomy 32:1.

And with Allah's guidance he will get 10 million.

The 10,000 are on the way "I believe before 1969 is out, we will have 1 million, but Allah didn't tell me that But I don't believe I will be mistaken.

And they will be coming in by the thousands. They don't mind coming in and following the law. All they want is to know the law.

When you see young girls returning home to put long dresses on to visit the temple

No one will be sure on that day. Don't be sitting around knowing you are going to be saved. It is no special one but the one who is careful of his duty and honorable to Allah will be saved.

Spirit of revolution is in the mind of the people to bring this country to an end.

Every hour now you will hear something because you are in it. The power of the enemy must be broken. Hot-rain, ore. Don't forget and dismiss from our mind and forget the time and don't prepare "My lord delayed his coming" and they drink and eat with drunkards and they got restless and didn't want to listen.

Make him to feel happy and sure then get him. This is the way Allah destroys people. As in Lost and Noah so shall it be.

Holy Quran said miracles were given to people before you and they did not believe. "They will be full of the cares of this world. Allah did not make universe for sport and play. If you believe act on the principles of belief.

America will be baptised in blood. A change in the government will take place. We want to teach our children and grownups the knowledge. We want to eliminate the story. If you talk about a cat or dog, teach the true nation of these animals.

40 ft. refrigerator trailer buying.

Who will perfect the earth? We the lost found members of the Tribe of Shabazz. When was the last time our power has been felt in a perfected manner? 50,000 years ago. Since then have we ?????? or has the ?????? erased in knowledge or has man been able to create another universe. As the Holy Quran says in verses look at the universe, look again and again or ???? still quibbling with understanding simple laws
