It is a most happy diver, who discovers such a rare example of art and wealth, and beauty; however there are no comparison of the black woman with gold of the mines, and pearls of the sea...Gold and precious pearls are discovered; they yet exist but the knowledge Is not known to so many of us, all praise is due to the Almighty God, Allah; In the manner in which I compare the gold and pearl to me, and the Discoverer, Almighty God, Allah.

## **Man and Woman**

It is a biological fact, man has forty-eight (48) chromosomes. Chromo - meaning coloring, and some - meaning bodies or agents, which being joined to the female ovum, make up the anatomy and physiology of mankind. They are listed as (46) plus one (X) and one (Y) factor. In that the female has two of the (X) factors instead of one (X) and one (Y), the factor standing for the masculine (Y), and the factor standing for the feminine, (X). Therefore, male reads on a the biological scale, (46XY) and female reads, (46XX), thus the make is the positive man, and the female is the negative man. However, in child birth - if the (Y) factor pre-dominates over the (X) factor, then the child will be a boy. Conversely, if the (X) factor pre-dominates, it will be a girl. Also since man possesses both the (X) and (Y) factors, his nature is the positive one, and the female possessing only the

(X) factor, is the negative. In science which is the study of natures laws, we find that all matter is composed of atoms; and the atoms are primarily composed of two (2) charges of electrical energy. One positive, and the other negative. And with just the (46XY)(positive), and the (46XX) (negative), the difference is that the positive charge and negative charge making up the center or nucleus of the atom is inhabited by the negative charge alone.

# **Life:**

## **(One hundred and twenty Degrees)**

Life and substances are one and the same, one and forever inseparable but different aspects however, of the one reality; Life is a positive Electricity substance; negative life is a dynamic static.

Life is activity or spirit; and substance is form or matter; life is the father and begets, substance is the mother and conceives. In addition to these two aspects of life and substance, there is still a third; life is a potential activity and need's a field of operation.
