

A WARNING TO THE M.G.T. & G.C.C.

To Repent and Do The First Work

By Elijah Muhammad: Servant of Our Saviour

O you Muslim Girls Training and General Civilization Class, of the wilderness of North America, whom the Lord, Our Saviour, found and chose for Himself; and made for you a Law and Guide, that you may excel Nations.

REMEMBER: How you have turned back. Repent of your lewd ways and return to your Saviour. Amend your ways, and He will return unto you, and forgive you of your faults and make for thee a Light. **For you have sinned and did a hateful thing in the sight of Allah. By casting aside the Moral Precept in which He gave you.**

REMEMBER: How He chose you and made you teachers and taught you how to clean yourselves from evil things. He gave you pure food to eat and good clothing and brought for you bracelets, earrings, neck-chains, hair-broaches, and head ornaments and taught you how to form yourselves that, that beauty the devils had robbed you of might return unto you again. **And as long as you followed this Divine Law, you began to return to your beauty.**

Your skin became beautiful, your form became graceful, your health was returning to you. And everything you laid your hands to He made it prosper. Your fame went abroad, and thine own enemies, began to admire thee. "Yea, moreover: Our Saviour took you and carried you about and amused thee from city to city, that you may know that He was thine Saviour. And that He had the power to make for a Heaven in the wilderness if only you believe and obey. **HEAR NOW: O Muslim Girls Training and General Civilization Class. How you have fallen from the right way, that you are no more admired, but are looked upon by thine enemies as most hateful.** And they whisper among themselves saying, are these the models that were to be for the lost found? How they degraded themselves. You have fallen, gone back to that which your Saviour did come and pull you out. What meaning have you in painting your faces, putting false eyebrows on, reddening your lips (nails) with paint, painted lips, cheeks, hair burned out, straightened by hot irons, using swine grease on it, and on thine faces. **Dressing in tight form fitting clothes, so as to show thy form and thus tempt men and boys to commit adultery with thee.**

You have gone and stood in the highways, and on the street corners and winked with thine eyes. Yea and open thine feet to strangers or whosoever will. Yea: **you are like a red hot oven, the filthy lust of adultery is eating you up.** You have brought shame upon your Nation, as well as your family. Your innocent children, your husband can not hold their heads up before the Nation, because of the lewd ways of adultery.

You have loved the ways of the devil and despised your own in which Our Saviour, has brought thee. The cry of adultery is in every city, throughout the country, from our women and girls, for men to come and lie with them that their shame may be increased.

In several of the larger cities, our women and virgin daughters are hiring themselves to the devils to use their bodies for fornication purposes; these evil adulteresses are sometimes found among so-called

society, spreading untold misery of white devils disease, besides corrupting their children and themselves with such diseases as white and syphilis. **When are we going to rise from such shameful a generation, following after the styles of the devils**, and have thrown our intelligence into the garbage can.

Our little children going to the schools, sweet-hearting with devil boys and girls. This starts them crazing for adultery and vice of all kinds. Know you not, that 90% of our girls virginity is first destroyed by the devils. And near the same percentage in corrupting our homes between man and wife. This started from the devils homes and offices. Nurses are attacked by devils, and are **lured by a few shiny nickels or steady employment**.

Dear Beloved Sisters: I am Allah's Apostle to you. To warn you that this evil of yours shall and must be stopped at once, or be destroyed by hellfire, with devil. I must make a people to meet the appearance of Our Saviour's return. Repent and reform yourselves from uncleanness, and **stop rebelling**. And obey the Law of Islam, and Allah's Apostle and you will see the hereafter. The time has come: **Make yourself ready**.

REMEMBER: Problem #2. That Our Saviour, wrote for your admonishment. Anyone of you who have read and understands the Problem should show an example to the others by reforming yourselves. My opinion of Problem #2, is given here in the following. These Problems should be read and studied every time the Class meets. And any one of you not trying to live up to the Law laid down by Our Saviour for our improvement, must be stricken from the roll at once. **No more time to waste on rebels, and fault finders of Islam. Come right or not at all.** Our Saviour helps us who try to do His will and punishes the hypocrites.
